

# TS 500i STIHL Cutquik®

**A cut-off machine with the world's first electronically controlled fuel-injection system that increases power, not weight when operating 14" wheels.**

Abrasive cutting just got more cutting edge. STIHL introduces another industry first with the TS 500i STIHL Cutquik® cut-off machine – the first handheld outdoor power tool to offer an electronically controlled fuel-injection system. This system increases power and performance over 15% while remaining lightweight and well-balanced. The fuel injection system makes starting easier and more reliable by eliminating the choke. Just set the switch to on, prime and pull.

Lightweight, powerful and fuel-injected, this 14" cut-off machine is designed for superior balance and handling during your toughest jobs. And just like a powerful sports car, you will be impressed with the amazing acceleration of this machine, getting you back to speed faster than you thought possible. The STIHL TS 500i also features a high-efficiency engine with low exhaust emissions and optimal torque throughout its RPM range. Its Electronic Water Control (EWC) allows for easy water flow adjustment while cutting and its X2 air filtration system maintains an incredible 99.96% cleaning efficiency. This machine has it all, so very little can stand in your way.

NOTE: Abrasive wheel included. Diamond wheel (shown) sold separately.

## Important Information

**WARNING!** Improper use of any power tool may cause serious or fatal injury. Read, understand and follow carefully the operating and safety instructions in your instruction manual before using such products.

**STIHL products sold through U.S. STIHL Dealers are for distribution in the United States only.**

**WARNING!** Never use carbide-tipped, wood cutting or circular saw blades on cut-off machines. They can cause severe personal injury or death from reactive forces, blade contact or thrown tips. Never cut wood of any type.

**Note:** STIHL recommends use of fuel with no more than 10% Ethanol content. Using fuel with greater than 10% Ethanol content may cause damage to your equipment and may void your STIHL warranty. [Learn More...](#)
